

# Isaac Hawkins

*Front-end Web Developer  
Austin, Texas*

## Professional Experience

### Front-End Developer

2016 – 2017

#### Freelance

- Work with a team of developers in building a full-stack application that documents where current and previous bootcamp students are employed and provide some statistics about the job search process.
- Design and develop the front-end for a web application that allows users to fill out a profile and match with other users based on common interests.
- Built a web application that connects to Zomato's API to retrieve restaurant information that was customized for the user based on location, price, and cuisine type.

### Residence Life Coordinator

2014 – 2017

#### Towson University

- Organized and provided leadership for over 20 student employees, assisting them in their community building efforts and educational programming initiatives.
- Designed and developed our buildings Sharepoint website for students to have access to relevant information and event details.

### Residence Director

2012 – 2014

- Planned and implemented recruitment, selection, and evaluation of programs for 50 paraprofessional staff members.
- Redesigned and updated the residence life web page to include forms, photos, policy changes, and updates to important contact information.
- Created social, educational, and spiritual programs for students outside of the classroom.
